Experience excursion: Dolce Vita on Lake Garda with Axl

No other lake is as popular as the largest lake in Italy. No wonder, because no other lake has so much variety to offer as the Lake Garda.

No matter in which corner of the lake you stay, the atmosphere is simply dreamlike. Here begins Dolce Vita and you can really let your soul dangle. With the hotel shuttle we drive in the morning to Lake Garda. Our destination is the charming town of Bardolino. The small town of Bardolino is primarily known for the eponymous and extremely popular red wine grown in the immediate hinterland. The town is located on the eastern shore of Lake Garda and offers a breathtaking view over the lake and the surrounding hills. In the old town you will find narrow streets, cobbled squares and historic buildings. The strolling and shopping streets invite you to stroll and offer a wide selection of stores, cafes and restaurants. The waterfront promenade is a popular place to walk and offers a beautiful view over the lake.

After enjoying "la Dolce Vita", we return to Taisten.

Experience excursion with Roman: World famous and beautiful - Venice the city of love

Charming facades, impressive churches and palaces, elegant bridges and romantic canals - this is Venice.

Venice is a city of art and culture. You can only explore the "floating city" on foot or by boat. After all, Venice was built on far more than 100 former marshy islands connected by over 400 bridges and is located in a unique lagoon landscape closed off from the sea. Venice's buildings, bridges and squares were built on thousands of wooden piles. Because the sea level is rising and the sandy subsoil is sinking several millimeters every year, the unique city is in danger of sinking into the sea. Venice has also been on UNESCO's World Heritage List of cultural monuments worthy of protection on the continent since 1987. During a guided tour we will learn a lot about the moving history of Venice and be enchanted by the sights and numerous art and cultural treasures. We enjoy a wonderful day in the lagoon city.

Start: 7.00 am | Return: ca. 6.30 pm | Registration: 7.00 pm the day before

Costs: 50,-€ for the ferry to the city center and the guided tour by an experienced guide

The gentle ascent leads to several waterfalls, with the third one standing out at an impressive 42 meters in height. Next, we'll head to Taufers Castle. The castle impresses with its extraordinary size and defensive structure. Its prominent walls and towers rival the majestic peaks of the Alps. Built at the beginning of the 13th century, the castle houses more than 60 rooms, including the castle chapel with the famous "Pacher Frescoes," the magnificent Knights' Hall, and the large library. Experience Excursion with Daniel: to Lake Federa, a unique natural jewel

chanting, magical, peaceful, untouched – in short, it is one of the most beautiful mountain lakes in the Dolomites: Lago Federa, easily accessible on foot. The rock backdrop of Croda da Lago with its walls, towers, and wild peaks is magnificent. Here, one can wonderfully admire the splendid natural setting away from Cortina d'Ampezzo, with the mountain giants Croda da Lago, Croda Rossa, Pomagagnon, Cristallo, and Sorapis, as well as the unique fauna at Lago Federa. A peculiar feature of Lago Federa is its water level, which remains nearly constant in both summer and winter. This is likely due to one or more underground springs.
